Profile

Currently a full-time student pursuing a bachelor's of science degree in Multimedia computing, with a minor in philosophy at Brooklyn College. I am passionate about technology, coding, music, art, literature, and science.

Experience

IN-STORE SHOPPER, INSTACART – AUG2015-CURRENT

Responsible for grocery shopping orders that customers ordered online at a manhattan whole foods. All orders are processed through an iOS application, and frequent communication with customers was needed in the event that certain requested items were out of stock.

COPY & PRINT ASSOCIATE, STAPLES - JUN2015 - SEP2015

This role included taking orders requested by customers in person, and online that involved making copies of various documents, printing posters, binding booklets, laminating documents, resizing photos/documents, and more. The copy center also had a shipping section at which I would process packages for UPS, and USPS delivery.

INSTALLATION, AUDIO SERVICES - 2013 - CURRENT

I aide this company when I am in my hometown of Rockland County. I help install Wi-Fi systems at residential locations using various network technologies including: routers, switches, access points, etc. Installations also included A/V, and home automation systems including smart TV's, and Universal Remotes.
